

BLACK BEAR

VALUE PARTNERS

Fund Strategy

Black Bear Value Fund, LP is an opportunistic, concentrated and fundamental value investment partnership. Our partnership operates with low fees and high levels of alignment between the Investment Manager and the Limited Partners. We actively seek undervalued and concentrated investments in the stock and bond markets that can be purchased at discounts to their intrinsic value/recovery value.

Portfolio Manager

The Fund is managed by Adam Schwartz who has 18 years of buy-side investment experience in a variety of themes including equities, structured products, corporate credit and capital structure arbitrage. Prior to founding the Investment Manager, Adam served as a Director and senior member of the investment team at Fir Tree Partners, a \$13BB peak-AUM multi-strategy investment manager (2007-2015). Adam received his BS and MS with a concentration in Accounting from Washington University in St. Louis in 2001/2002.

THIS DOCUMENT IS NOT AN OFFER OR THE SOLICITATION OF AN OFFER TO BUY INTERESTS IN BLACK BEAR VALUE PARTNERS, LP (THE “FUND”). AN OFFERING OF INTERESTS WILL BE MADE ONLY BY MEANS OF THE FUND’S CONFIDENTIAL PRIVATE OFFERING MEMORANDUM (THE “MEMORANDUM”) AND ONLY TO SOPHISTICATED INVESTORS IN JURISDICTIONS WHERE PERMITTED BY LAW.

This document is confidential and for sole use of the recipient. It is intended for information purposes only and should be used only by sophisticated investors who are knowledgeable of the risks involved. No portion of this material may be reproduced, copied, distributed, modified or made available to others without express written consent of Black Bear Value Partners, LP (“Black Bear”). This material is not meant as a general guide to investing, or as a source of any specific investment recommendation, and makes no implied or express recommendations concerning the matter in which any accounts should or would be handled.

The returns listed reflect the unaudited and estimated returns for the Fund for the periods stated herein and are net of fees and expenses. Black Bear currently pays certain fund expenses, but may, at any time, in its sole discretion, charge such expenses to the Fund in the future.

Please note that net returns presented reflect the returns of the Fund assuming an investor “since inception”, with no subsequent capital contributions or withdrawals. You should understand that these returns are not necessarily reflective of your net returns in the Fund, and you should follow-up with Black Bear if you have any questions about the returns presented herein.

An investment in the Fund is speculative and involves a high degree of risk. Black Bear is a newly formed entity with limited operating history and employs certain trading techniques, such as short selling and the use of leverage, which may increase the risk of investment loss. As a result, the Fund’s performance may be volatile, and an investor could lose all or a substantial amount of his or her investment. There can be no assurances that the Fund will have a return on invested capital similar to the returns of other accounts managed by Adam Schwartz due to differences in investment policies, economic conditions, regulatory climate, portfolio size, leverage and expenses. **Past performance is not a guarantee of, and is not necessarily indicative of, future results.** The Fund’s investment program involves substantial risk, including the loss of principal, and no assurance can be given that the Fund’s investment objectives will be achieved.

The Fund will also have substantial limitations on investors’ ability to withdraw or transfer their interests therein, and no secondary market for the Fund’s interests exists or is expected to develop. Finally, the Fund’s fees and expenses may offset trading profits. All of these risks, and other important risks, are described in detail in the Fund’s Memorandum. Prospective investors are strongly urged to review the Memorandum carefully and consult with their own financial, legal and tax advisers before investing.

This presentation contains certain forward looking statements. Such statements are subject to a number of assumptions, risks and uncertainties which may cause actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by these forward-looking statements and projections. Prospective investors are cautioned not to invest based on these forward-looking statements.
